A special broadcast on longwave 147,3 kHz & amateur crossband event will be held in memoriam of the sinking of

RMS "Titanic"

on 14th April 22:30 GMT until 15th April 02:00 GMT
with NWS transmitter DDH47 on 147,3 kHz in Morsecode only
During 'silence periods' (red sectors of radio clock) of former maritime radio service the names of radio officers will be sent in qrss3 (1 dot in 3 seconds !)

Calls from amateur radio on hf will be answered by DL0SWA & DDH47

Read whole "Titanic" story in many languages on Wikipedia

Event hosted by Deutscher Wetterdienst (DWD) & employees of TI33, Pinneberg & amateur radio group Seewetteramt & friends of Prof. Braun Day

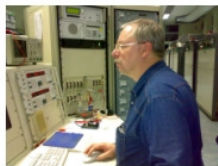

Funkuhr mit Seenotpausen-Sektoren
